*March 24<sup>th</sup>, 2025*                      *Shelly Liston, villageofbagley@gmail.com*

GRANT/VILLAGE OF BAGLEY, Wis. – Residents in *Grant, Village of Bagley* can have a front-row seat as local election officials hold a statutorily required public meeting to conduct pre-election testing of voting equipment that will be used in the **April 1<sup>st</sup> Spring Election**.

On **March 27<sup>th</sup>**, election workers in the *Village of Bagley* will conduct open-to-the-public pre-election testing of voting equipment. The testing will take place at the **Village of Bagley Community Building, 400 Jackley Lane, Bagley WI 53801** from **11am to 12pm**.

The testing provides an additional way to ensure that voting machines are working properly, and that the election will be conducted accurately.

By state law, a pre-election test of voting equipment occurs before every election and in every municipality across Wisconsin. In the public tests, voting machine programming is verified by feeding a set of pre-marked ballots into each machine and reviewing the results tape that is generated. An errorless count is required at the conclusion of the testing. According to Wis. Stat. 5.84(1), any anomalies identified in testing must be remedied before the equipment can be used in an election.

More information about audits generally can be found here:
